About

Creative and results-driven Frontend Engineer specialized in React, with proven expertise in developing MVPs and prototyping innovative solutions within agile Labs environments. Adept at transforming business needs into scalable, high-performance web interfaces and user experiences. Skilled in TypeScript, modern JavaScript frameworks, UI/UX best practices, and rapid product iteration. Passionate about clean code architecture, cross-functional collaboration, and continuous learning to deliver digital products that make a real impact.

Competencies: JavaScript • Typescript • HTML • CSS • React Native • React, Next.js, Node.js • Redux, Zustand, React Query • Tailwind CSS, Material UI, Mantine, Bootstrap, Chakra UI • Software Development • Continuous Improvements

Experience

Pitang **Remote** **Full-Time** *Sep 2022 - Present*

Software Engineer

Responsibilities:

Originally hired by BBChain and transitioned to Pitang following its acquisition, I work within the Labs team, focused on building MVPs and scalable digital products for clients ranging from startups to enterprise organizations. My role spans frontend engineering and occasional full-stack contributions, adapting quickly to diverse challenges and domains. I work across various industries—finance, education, healthcare, cryptoassets, and public services—delivering fast, reliable solutions under tight deadlines. My ability to shift between technologies and problem spaces helps accelerate innovation and reduce time-to-market.

Technologies: HTML • CSS • JavaScript • TypeScript • React • AI (LLM) • Lovable • React Query • Tailwind CSS • Angular • React Native • Expo • Zustand • Vite • Shadcn UI • Next.js • Nuxt.js • Material UI • Playwright • Flutter • Flutterflow • Dart • Firebase • Styled Components • Micro Frontends • Modules Federation • Bpmn-js • Bpmn-js forms • VueJs • Python • React Form Hooks • Bootstrap 4 • Bootstrap 5

BBChain **Remote** **Full-Time** *Oct 2020 - Sep 2022*

Frotend Software Engineer

Responsibilities:

At BBChain, a pioneer in corporate blockchain solutions, I contributed to the development of web and mobile applications for large-scale clients across finance, cryptoassets, and enterprise platforms. My role focused on building robust, scalable frontends using modern frameworks and tools, while collaborating with cross-functional teams to deliver secure and high-performance products.

Technologies: HTML • CSS • JavaScript • TypeScript • React • Styled Components • React Native • Bootstrap • Redux Core • Chakra UI • Redux Toolkit • Next.js • Next translate • Micro Frontends • Nx • Yarn workspaces • Mantine UI •

Vite • React Form Hooks • React i18next

Deal **Remote** **Freelance** *Jan 2020 - Jun 2020*

Frontend Engineer Consultant

Responsibilities:

I helped transform client needs into digital solutions by applying agile methodologies and modern frontend technologies. I worked on multiple web applications for well-known brands, contributing to the development of scalable, user-focused interfaces that supported business goals across e-commerce, insurance, and loyalty platforms.

Technologies: HTML • CSS • JavaScript • React • Redux Core

Ateliê de Software **Office** **Full-Time** *Feb 2019 - Oct 2020*

Full Stack Engineer

Responsibilities:

I contributed to the development of digital solutions for medium and large companies across various industries. My role involved implementing new features and building web and mobile applications using modern technologies, always within agile teams focused on delivering value quickly and efficiently.

Technologies: HTML • CSS • JavaScript • Webpack • React • Redux Core • Styled Components • Ruby • Ruby on Rails • React Native • Expo • MobX • Nuxt.js • Styled Components • Tailwind CSS

Grupo Soitic **Office** **Full-Time** *Nov 2015 - Apr 2017*

Full Stack Engineer

Responsibilities:

Led the modernization of legacy medical software into a scalable, web-based solution that improved operational efficiency and positively impacted over 30,000 healthcare professionals. Collaborated with stakeholders to assess technical feasibility and align development with market and user needs.

Technologies: HTML • CSS • JavaScript • AngularJS • JQuery • Bootstrap • .NET Framework • ASP.NET • C# • SQL Server

Education

Pontifical Catholic University of Minas Gerais (PUC-MG) *2014 - 2018*

Computer science.

Bachelor's degree in computer science.
